

The First-ever touring electronic ONLY music festival:

As electronic music continues its domination of a rave new world -- with dubstep now heard on shopping mall PA systems and house music a common soundtrack for commercials -- it comes as little surprise that a traveling one-day festival would plot a path across North America's summer sheds including the Jones Beach Amphitheater, featuring a cornucopia of electronic heavy hitters. And, thus, along comes IDentity -- an itinerant dance party and social gathering not unlike the original vision behind Lollapalooza or H.O.R.D.E. -- except, of course, that IDentity will be defined and driven almost exclusively by electronic music. Headlined by Kaskade, additional artists on the tour include Rusko, Steve Aoki, DJ Shadow, Modeselektor, Etienne De Crecy, Crystal Method, Nero, Nervo, Skrillex and lots more, on multiple stages.
